

Education

- Sept 2015– **PhD, Biostatistics**, *University of Washington*, Seattle, CA.
June 2020 Advisors: Noah Simon, Frederick Albert Matsen IV
2012–2013 **MS, Computer Science**, *Stanford University*, Stanford, CA.
2009–2013 **BS, Computer Science**, *Stanford University*, Stanford, CA.

Presentations

Contributed Oral Presentations

- 2019 *Uncertainty-Aware Black-Box Predictors with Coverage Guarantees*, Joint Statistical Meetings

Invited Oral Presentations and Seminars

- 2020 *Efficient nonparametric statistical inference on population feature importance using Shapley values*, International Conference on Machine Learning
2020 *Training Procedures and Regulatory Policies for Safe Machine Learning Models in Healthcare*, University of California, San Francisco
2020 *Training Procedures and Regulatory Policies for Safe Machine Learning Models in Healthcare*, The University of Texas, MD Anderson Cancer Center
2020 *Training Procedures and Regulatory Policies for Safe Machine Learning Models in Healthcare*, University of California, Irvine
2020 *Approval policies for modifications to Machine Learning-Based Software as a Medical Device: A study of Bio-creep*, International Conference on Health Policy Statistics
2019 *Sparse-Input Neural Networks for High-dimensional Nonparametric Regression and Classification*, Western North American Region (WNAR) Annual Meeting
2018 *Nonparametric variable importance using an augmented neural network with multi-task learning*, International Conference on Machine Learning
2018 *Sparse-Input Neural Networks for High-dimensional Nonparametric Regression and Classification*, University of Washington Biostatistics Colloquium
2018 *Sparse-Input Neural Networks for High-dimensional Nonparametric Regression and Classification*, Joint Statistical Meetings
2017 *Sparse-Input Neural Networks for High-dimensional Nonparametric Regression*, ICML Workshop on Principled Approaches to Deep Learning
2011 *Haptic Belt with Pedestrian Detection*, Neural Information Processing Systems

Awards

- 2020 University of Washington Thomas R. Fleming Excellence in Biostatistics Award
- 2020 International Conference on Health Policy Statistics, Student Travel Award
For manuscript: *Approval policies for modifications to Machine Learning-Based Software as a Medical Device*
- 2018 Joint Statistical Meetings Section on Statistical Learning and Data Science, Student Paper Award
For manuscript: *Sparse-input neural networks for high-dimensional nonparametric regression and classification*
- 2018 University of Washington Biostatistics Donovan J. Thompson Award for Best Combined Performance on Ph.D. Theory and Applied Qualifying Examinations
- 2015–2017 Big Data for Genomics and Neuroscience Training Grant

Publications

Brian D Williamson and Jean Feng. Efficient nonparametric statistical inference on population feature importance using shapley values. *International Conference on Machine Learning*, 2020.

Jean Feng and Noah Simon. An analysis of the cost of hyper-parameter selection via split-sample validation, with applications to penalized regression. *Statistica Sinica*, 2020.

Jean Feng, David A Shaw, Vladimir N Minin, Noah Simon, and Frederick A Matsen, IV. Survival analysis of DNA mutation motifs with penalized proportional hazards. *Ann. Appl. Stat.*, 2019.

Kristian Davidsen, Branden J Olson, William S DeWitt, 3rd, Jean Feng, Elias Harkins, Philip Bradley, and Frederick A Matsen, 4th. Deep generative models for T cell receptor protein sequences. *Elife*, 2019.

Jean Feng, Brian Williamson, Noah Simon, and Marco Carone. Nonparametric variable importance using an augmented neural network with multi-task learning. *International Conference on Machine Learning*, 2018.

Jean Feng and Noah Simon. Gradient-based regularization parameter selection for problems with nonsmooth penalty functions. *J. Comput. Graph. Stat.*, 2018.

Pre-prints

Jean Feng and Noah Simon. Ensembled sparse-input hierarchical networks for high-dimensional datasets. *arXiv*, 2020.

Jean Feng, Arjun Sondhi, Jessica Perry, and Noah Simon. Selective prediction-set models with coverage guarantees. *arXiv*, 2019.

Jean Feng and Noah Simon. Sparse-Input neural networks for high-dimensional nonparametric regression and classification. *arXiv*, 2019.

Jean Feng, Scott Emerson, and Noah Simon. Approval policies for modifications to machine Learning-Based software as a medical device: A study of bio-creep. *arXiv*, 2019.

Jean Feng, William S DeWitt, Aaron McKenna, Noah Simon, Amy Willis, and Frederick A Matsen. Estimation of cell lineage trees by maximum-likelihood phylogenetics. *bioRxiv*, 2019.

Software

- GapML Python package for analyzing cell-lineage tracing data from GESTALT
<https://github.com/matsengrp/gestaltamania>
- SPINN Python package for estimating sparse-input neural networks
<http://github.com/jjfeng/spinn>
- samm Python package for estimating somatic hypermutation rates of nucleotide motifs
<http://github.com/matsengrp/samm>

Work Experience

- 2019 **Research Intern**, *Insitro*, South San Francisco, CA.
Developed statistical models of genomic data.
- 2012–2015 **Software engineer**, *Coursera*, Mountain View, CA.
Built the professional certificate program and payment system. Technical lead on projects with 3-5 people. Mentored interns and junior engineers.

Teaching

- 2018 Teaching Assistant, Biostat 524: Design of Medical Studies, University of Washington
- 2017 Guest lecture, Biostat 561: Computational Skills for Biostatistics I, University of Washington
- 2016–2017 Teaching Assistant, Unsupervised Methods for Statistical Machine Learning, University of Washington Summer Institute in Statistics for Big Data
- 2016 Teaching Assistant, Supervised Methods for Statistical Machine Learning, University of Washington Summer Institute in Statistics for Big Data
- 2011 Section Leader, CS106A: Programming Methodology, Stanford University

Service

Referee Service

- International Conference on Machine Learning
- Journal of Computational and Graphical Statistics
- Annals of Statistics
- Statistics in Medicine
- Neural Networks

Session Chair

- Joint Statistical Meetings
- Western North American Region (WNAR) Annual Meeting

University Service

- Student, Faculty, Staff Committee, 2016–2019
- Department Slack manager 2016–2020
- Graduate Program Advising Advisory Group 2020
